Top, bottom and side ventilation channels

Natural latex

## The perfect value

Our Madrid Plush mattress has a latex core and bamboo cover, lasting an expected 20 to 30 years is so much better value for you and the environment than other mattresses full of petrochemical foams and synthetics which might last 10 yrs.

Here we have an incredibly comfortable mattress. So good that we offer a 100% satisfaction guarantee, with a 30 day home trial. We also have a selection of holiday choices at various locations around Australia available for you to stay and rent for the weekend. This will give you a holiday and a chance to enjoy the luxury of one of our latex beds and pillows. Try before you buy and if you do decide to make a purchase Latex Bedding Co will reimburse your weekend stay. See website for current specials and conditions.

## An incredibly comfortable mattress

Our Madrid Plush mattress is made in Belgium by Revor using the best of new and existing technologies and materials to provide the perfect sleeping environment.

At its heart is the seven zoned latex core. Seven zones with softer sections under your hip and shoulder and firmer under back and pillow to maximise comfort and support and give optimal spinal alignment.

The core is made by latexco, the worlds oldest and largest manufacturer of latex bedding products.

[www.latexco.be](http://www.latexco.be)

Natural latex from the sap from rubber trees in sustainable plantations.

We use no calcium fillers which can greatly reduce the life of the mattress.

## The perfect sleeping environment

Our Madrid Plush mattress has open celled breathable latex with ventilation holes top and bottom as well as 4 cross vent channels for a cool, dry, comfortable and healthy sleeping environment.

Many mattresses are covered with thick layers of polyurethane foam and polyester fibre which don't breathe and which trap body heat and moisture. These mattresses are therefore hot to sleep on and develop body impressions which are not covered by warranty.

## The perfect comfort

Our Madrid Plush mattress has a state of the art zip off, washable cover. Only millimetres thick, it combines the best possible materials and features to give perfect comfort (and a hygienic and healthy sleeping environment).

The top is made from natural bamboo fibre with a lovely soft touch and is naturally bacteria and fungi resistant.

## To accompany the luxury of latex

Sheets and Pillowcases

At Latex Bedding Co we stock a beautiful range of 100% natural bamboo fibre sheets and pillowcases only available in a natural white colour, they are soft, silky and delicate to the touch. This bedding contains no chemicals, the bamboo fibre naturally breathes so you can enjoy a great nights sleep.

The sheets also have outstanding antibiotic properties: bacteria and fungi (moulds) simply do not like to grow in the bamboo fabric so the fabric always has a fresh clean smell compared to cotton and synthetics.

Latex Pillows

Our Latex Pillows have a fully sewn percale cover. They are fully washable, naturally anti bacterial, fungi and dust mite resistant. Perfect for allergy and asthma sufferers as no chemicals are added. Expect a 20 to 40 year lifetime.

## The perfect base

Enquire about our range of bases. This range combines great looks with a simple but effective design, giving greater flexibility to personalise your comfort. We have fixed slat, ensemble style bases and the Wimaflex adjustable base. Either side of the bed can be set differently and every slat can be set from soft to firm from head to foot. You choose the support and feel you desire.
